Print and technology solutions designed around your needs

Brother understands that when you're working in defence and security, there are some things you simply can't compromise on. This is why we focus on being as flexible as possible, designing our print and technology solutions around your needs.

Why Brother?

At Brother UK, we've been helping organisations work smarter and fulfil their requirements for over 50 years.

We've learnt a lot during these years, becoming specialists in lots of other diverse areas, such as healthcare, so we understand the challenges and problems you face on a day-to-day basis. That's why we've designed all of our solutions with flexibility at the heart of our offering, so you can select a bespoke or off-the-shelf solution that suits you best.

A team of experts at your side

We have a dedicated defence and security team, with the market experience to understand the issues you face.

By developing a close partnership with your team, we can offer unrivalled support and actionable insight with speed and accuracy. And because we're always at your side, you'll have access to our team of experts whenever you need it.

How we help

Our wide range of award-winning hardware solutions and best-in-class services for defence and security deliver maximum efficiency, security and value for money.

Brother's solutions are all focused on five key areas:

Collaboration
Mobility
Documentation
Identification
Workflow

Collaboration

Challenge:
You need to view live feed inspection data from your drone whilst keeping it in your line of sight at all times and meet safety regulations.

Solution:
AirScouter - an advanced head-mounted display which puts high definition content where it's most convenient - directly in front of your eye.

AiRScouter 300 Series

HDMI or HD-SDI 'plug and play' connectivity allows for quick and easy set up. View live feed data whilst keeping your hands free, ideal for aerial surveillance via drones, delivering training instructions along with field service and maintenance.

- IP54 dust and water resistance rating
- Lightweight flexi-arm viewfinder enables you to wear over helmets, with or without glasses, and over your left or right eye
- Widescreen 26.5" field of view with 16.7 million colours
- Up to 1080p resolution input
- Rechargeable battery or simple connectivity to external battery options.

Mobility

Challenge:
You need documents printed and signed on the go.

Solution:
Brother mobile printers allow you to print quickly and reliably, wherever you are in the world.

Benefits:

- Work without interruption using a direct wireless/Bluetooth connection to your tablet or smartphone**

- Robust, easy operation and lightweight design

- No need to order ink, toner or ribbons with direct thermal printing

- IP54 certified and drop test rating up to 2.5m.*

*Optional accessory required.

PJ-773

Mobile printer

Whatever situation you are in, this portable printer won't let you down. Allowing you to quickly print clear, professional documents using USB and wireless connectivity. Modular based design allows this device to fit into your existing workflow.

- Print clear and precise A4 and A5 documents on the move up to 300dpi

- Connect to any device with Bluetooth, USB and wireless network connectivity options**

- Rechargeable Li-ion battery allows you to print up to 600 pages on a single charge

- Customisable to meet your environment needs with optional accessories, such as carry case and car mount

- Thermal print technology means no inks or toners - just add thermal paper.

DS-720D

Mobile scanner

This portable scanner allows you to quickly share paper documents. Connected and powered by USB, the robust and lightweight design is perfect for carrying whilst on the move.

- USB powered means no down time due to loss of battery

- Scan speeds of up to 5ppm (10ipm)

- Automatic 2-sided scanning

- High speed USB 2.0 connectivity

- Ability to scan business and other cards, such as driving licenses.

Documentation

Challenge:
You need to manage a secure print environment and avoid breaches.

Solution:
Maintain complete control with Brother's Managed Print Services and award-winning hardware.

Benefits:

- Flexible solutions tailored to your exact operational requirements

- Wide range of connectivity options

- Total document security ensures nobody else can retrieve your documents

- Transparent bills means you don't get caught out with hidden costs.

HL-L5100DN

Mono laser printer

When security is the main priority, don't let it be breached through your printer. With high level encryption authentication and encryption via Active directory, LDAP and TLS/SSL, the reliability of the HL-L5100DN won't let you down. It's ideal for printing up to 3,500 pages a month and sharing across multiple users with a secure network connection.

- Fast print speeds of up to 40ppm
- Automatic 2-sided printing
- High speed network and USB 2.0 connectivity
- Combined paper input of 300 sheets
- High-yield, 8,000 pages replacement cartridges available.

HL-L5200DW

Mono laser printer

With additional wireless connectivity, this mono laser printer is perfect for sharing across multiple users. Easily print from mobile devices using the Brother iPrint&Scan app, Android print service plugin, Google Cloud Print 2.0, Mopria and AirPrint.

- Fast print speeds of up to 40ppm
- Automatic 2-sided printing
- High speed network, wireless and USB 2.0 connectivity
- Combined paper input of 300 sheets
- High-yield, 8,000 pages replacement cartridges available
- Additional lower paper trays available.

MFC-L5750DW

Mono laser printer

This all-in-one multifunction mono laser printer is ideal for sharing across multiple users with fast print and scan speeds. Again, not compromising on security but hosting additional features, such as scan to email and secure fax.

- Fast print speeds of up to 40ppm

- Automatic 2-sided printing

- High speed network, wireless and USB 2.0 connectivity

- Combined paper input of 300 sheets with additional lower paper trays available

- High-yield, 8,000 pages replacement cartridges available

- Print, scan, copy and fax capability

- Scan speeds of up to 48ipm

- Intuitive 12.3cm LCD touchscreen.

HL-L6300DW

Mono laser printer

Perfect for sharing across sites and busy control rooms, this enterprise level mono laser printer provides superior security and integration options with enterpise level costs. Fast print speeds and large paper capacity makes it ideal for printing up to 5,000 pages a month. NFC alongside shared connectivity options off er you increased security options.

- Super-fast print speeds of up to 46ppm with automatic 2-sided printing
- Outstanding paper capacity of 570 sheets, expandable up to 2,650 sheets
- Integrated NFC connectivity for added security alongside wired, wireless and USB connectivity
- Intuitive 4.5cm LCD touchscreen
- Super high-yield 12,000 page toner available.

HL-L6400DW

Mono laser printer

Improving on the HL-L6300DW, this mono laser printer boasts impressive print speeds and monthly volumes while keeping the advanced security features. Ultra high-yield supplies continue to reduce downtime and costs.

- Super-fast print speeds of up to 50ppm with automatic 2-sided printing
- Outstanding paper capacity of 570 sheets, expandable up to 2,650 sheets
- Integrated NFC connectivity for added security alongside wired, wireless and USB connectivity
- Intuitive 4.5cm LCD touchscreen
- Ultra high-yield 20,000 page toner available.

MFC-L6900DW

Mono laser printer

With additional print, copy, scan and fax capabilities, this enterprise all-in-one mono laser is ideal for printing and sharing high volumes of secure information. With 50ppm print and scan speeds and secure fax, it's perfect for printing and sharing of documents.

- Super-fast print speeds of up to 50ppm with automatic 2-sided printing
- Outstanding paper capacity of 570 sheets, expandable up to 2,650 sheets
- Integrated NFC connectivity for added security alongside wired, wireless and USB connectivity
- Ultra high-yield 20,000 page toner available
- Print, scan, copy and fax capability
- Super-fast 2-sided scan speeds of up to 100ipm
- Intuitive 12.3cm LCD touchscreen.

Additional lower trays

Compatible with Brother's L6000 mono laser printers, these additional trays can increase paper capacity up to 2,650 pages, saving time on reloading paper.

LT-5505

- 250 sheet additional capacity per tray
- 2 x 250 sheet trays supported.

LT-6505

- 520 sheet additional capacity per tray
- 2 x 520 sheet trays supported.

HL-L8360CDW

Colour laser printer

Ideal for sharing across multiple users with a wide range of connectivity options including wireless, this single function colour laser delivers flawless colour prints. Super high-yield toners and additional paper trays means less down time.

- Up to 31ppm mono and colour print speeds
- Fast USB, wired and wireless connectivity
- Intuitive 6.8cm LCD touchscreen
- Combined paper input of 300 sheets
- iPrint&Scan, Google Cloud Print and Apple AirPrint compatible.

MFC-L8900CDW

Colour laser printer

Help to increase productivity with this all-in-one device. Adding to the print capabilities of the HL-L8360CDW, this multifunction machine offers copy, scan and fax capabilities. The intuitive touchscreen and 2-sided scan function makes it perfect for sharing documents without the need of a PC.

- Up to 31ppm mono and colour print speeds
- Fast USB, wired and wireless connectivity
- Intuitive 12.6cm LCD touchscreen
- Combined paper input of 300 sheets expandable up to 2,380 sheets
- iPrint&Scan, Google Cloud Print and Apple AirPrint compatible
- Print, scan, copy and fax capability
- Up to 28ppm (56ipm) mono and colour scan speeds.

HL-L9310CDW

Colour laser printer

With secure connections as standard, including NFC for secure pull printing, this single function colour laser is perfect for larger control rooms and sharing across up to 10 users. Expandable paper handling options and 2-sided printing means this colour laser will help you increase productivity.

- Up to 31ppm mono and colour print speeds
- USB, wired, wireless and NFC connectivity
- 6.8cm LCD touchscreen
- Combined paper input of 300 sheets
- Expandable paper capacity of up to 2,380 sheets.

MFC-L9570CDW

Colour laser printer

Additional scan capabilities up to an impressive 50ppm (100ipm), plus copy and fax, means this multifunction colour laser printer is perfect for the needs of a busy control room. Share documents straight from the machine using the in-built features or securely send back to your PC.

- Up to 31ppm mono and colour print speeds
- USB, wired, wireless and NFC connectivity
- Intuitive 17.6cm LCD touchscreen
- Combined paper input of 300 sheets expandable up to 2,380 sheets
- Print, scan, copy and fax capability
- 50ppm (100ipm) colour and mono 2-sided scan speeds.

Identification

Challenge:
You need clarity and confidence when recording assets.

Solution:
Brother's market-leading labelling machines and hard wearing labels deliver long-lasting legibility, so you can find exactly what you need and clarify decisions when it matters.

Benefits:

- Easy identification of important assets and files

- Ability to effectively maintain your asset register

- Mobile solutions for operational requirements

- The most durable labels on the market, withstanding chemicals, temperature extremes and all-weather conditions.

QL-700

Desktop paper adhesive label printer

Design and print address, shipping and barcode labels with this 'plug and play' desktop label printer. Brother's free label editor software (P-touch Editor) allows you to create and print paper adhesive labels in a variety of sizes, as well as Brother's unique and versatile continuous roll, allowing you to print up to 1m signage.

- Print a range of label sizes, from 1m signs to small address labels
- Switch rolls easily with Brother's simple 'drop in' rolls
- Print directly from Microsoft Word, Excel and Outlook
- Automatic cutter for a clean finish to the label edge
- 300dpi print resolution ideal for barcode printing.

QL-800

Desktop paper adhesive label printer

An upgrade to the QL-700, with this high speed and versatile label printer you can print in black and/or red*, unique to Brother, perfect for highlighting important text in red.

- Print labels up to 1m long and 62mm wide in black and/or red*
- Simple 'plug and play' PC connectable label printer, using the USB port
- Using P-touch Editor easily print barcodes ideal for asset tracking
- Automatic cutter for a clean finish to the label edge
- Fast print speeds of up to 93 labels per minute.

*DK-22251 roll required

PT-H500

Powerful hand held durable label printer

Print durable, laminated labels of up to 24mm width with this hard-working label printer. With a range of in-built templates and smart keys. This durable, handheld label printer is ideal for asset tagging and barcode printing, or connect using Brother's P-touch Editor software for more options.

- Print durable laminated labels from 6mm up to 24mm in width
- Includes free Brother P-touch Editor software for PC and Mac
- Automatic cutter, with half cut function for batch printing
- Easy to use QWERTY keyboard with backlit LCD display
- Rechargeable Li-ion battery for total mobility
- Tested to extreme TZe labels, suitable for outdoor and indoor usage and resistant to abrasion, UV, water and chemicals with a temperature range of -80 to +150 degrees
- Rugged handheld design perfect for labelling on the move in the most extreme environments.

QL applications

P-touch applications

Workflow

Challenge:
Keeping paper documents secure whilst sending to multiple locations.

Solution:
Brother's range of desktop document scanners boast a huge range of options and security features, meaning there is a machine perfect for your needs.

Benefits:

- Scan directly to email, network and other services without the need for a PC

- Share across multiple users

- High volume capability of up to 5,000 pages a day

- Customisable LCD display and programmable buttons allow you to scan in to pre-existing software systems.

ADS-2400N

Desktop scanner

Scanning up to 30ppm mixed document batches, this desktop scanner is ideal for any control room where space is at a premium. With a daily duty cycle of up to 5,000 pages, you can be confident it will meet your needs with the advanced drivers included out the box.

- Fast 2-sided scan speeds of up to 30ppm (60ipm)
- Wired network and high speed USB 2.0 connectivity
- 50 sheet mixed batch paper input capacity
- Loaded with advanced image processing features
- Programmable buttons for frequently used actions
- TWAIN, ISIS, WIA, ICA and SANE drivers included for optimum performance.

ADS-3600W

Desktop scanner

For larger, busier control rooms, this scanner can save you time with 50ppm (100ipm) scan speeds. Wireless and NFC connectivity come additional to the network and USB connectivity of the ADS-2400N providing you with additional security.

- Rapid 2-sided scan speeds of up to 50ppm (100ipm)
- High speed wired network, wireless and SuperSpeed USB 3.0 connectivity
- 50 sheet mixed batch paper input capacity
- Loaded with advanced image processing features
- TWAIN, ISIS, WIA, ICA and SANE drivers included for optimum performance
- Lockable and customisable 9.3cm LCD touchscreen
- NFC connectivity for mobile and card identification.

A better way of working

At Brother, we take our environmental responsibilities seriously, and encourage our customers to do the same by sending us their used printer ink cartridges and toner cartridges for recycling at no cost.

Let us help you
